

Agent safety contract

Sign this with a grown-up before your first mission

AS A YOUNG LIGHT SCIENTIST, I PROMISE TO

- ☐ Never shine the torch or laser into anyone's eyes, including my own.
- ☐ Never look directly into the UV torch - UV light can hurt eyes.
- ☐ Use the UV pen only on paper, never on skin.
- ☐ Keep magnets away from phones, laptops, televisions and bank cards.
- ☐ Handle mirrors carefully and tell a grown-up at once if one cracks.
- ☐ Keep small parts away from children under five.
- ☐ Ask a grown-up before using scissors or anything sharp.
- ☐ Tidy my workspace and put the kit away when I have finished.

MY GROWN-UP PROMISES TO

- ☐ Be in the same room while I work.
- ☐ Help with anything sharp, or anything that plugs into a wall.
- ☐ Read the safety notes in the manual before we start.
